Initial Download and Install

You will need:

- ◆ a Pocket PC with the Pocket PC 2002 Operating System
- ◆ 10MB of free Memory
- ◆ ActiveSync® installed on your desktop computer.

Note: If you already have a trial version of MIMS installed on your Pocket PC, then delete the existing files. To do this select: Windows>System>Remove Programs. Select MIMS and remove.

There are five steps to successfully installing the most recent version of MIMS on PDA for Pocket PC. To install MIMS Interact on PDA, you repeat steps 1 to 5.

Step 1 - Check the version of your Pocket PC

1. Tap **Start**.
2. Tap **Settings**.
3. Tap the **System** tab.
4. Tap **About**.

If you have a Pocket PC 2002, then the following is displayed:

Version 3.0.11171 (build 11178)

Copyright 1996-2001

Your screen will look like this:

If the above is NOT displayed, **then** this is not the correct download for you. Return to the MIMS web site and select the download for All Pocket PC with Windows Mobile 2003 devices.

Step 2 - Download the MIMS files to your desktop computer

1. Open your web browser.
2. Go to the **www.mims.co.nz** site.
3. Select **MIMS ON PDA** from the left hand menu bar.

The following window is displayed:

MIMS on PDA	MIMS on PDA						
<input checked="" type="checkbox"/> Download	MIMS on PDA is the MIMS monthly database accessible on handheld devices. Included in the product is MIMS Interact on PDA, an invaluable interaction checking facility that allows you to look for interactions between compounds before prescribing (Palm OS only).

4. Click on **Instructions** to read the Download and Install instructions on screen, and to print the instructions.
5. Select **Download** from the left hand menu bar.
6. Read the MIMS and MIMS Interact on PDA™ Software Licence Agreement and click on the **ACCEPT** button to continue.

Click on the [Download MIMS](#) link for **All Pocket PC with Windows Mobile 2002 Software**.

For All Pocket PC with Windows Mobile 2003 Software	Download MIMS Download MIMS Interact
For All Pocket PC with Windows Mobile 2002 Software and StrongARM SA11XX (eg Compaq iPAQ H3100, iPAQ H3600)	Download MIMS ← Download MIMS Interact
For Hitachi SH3 (eg HP Jornada 548)	Download MIMS Download MIMS Interact
For MIPS R4XXX (eg Casio E-115, EM-500, Compaq Aero 1550)	Download MIMS Download MIMS Interact

1. The following window is displayed.

2. Browse for your MIMS folder and save the file to your computer.

Note: If necessary, create a folder for MIMS on PDA.

If you have downloaded an earlier version of MIMS on PDA, you may be prompted to replace the existing file. Click Yes.

3. When the file has downloaded, and Download Complete window will be displayed.

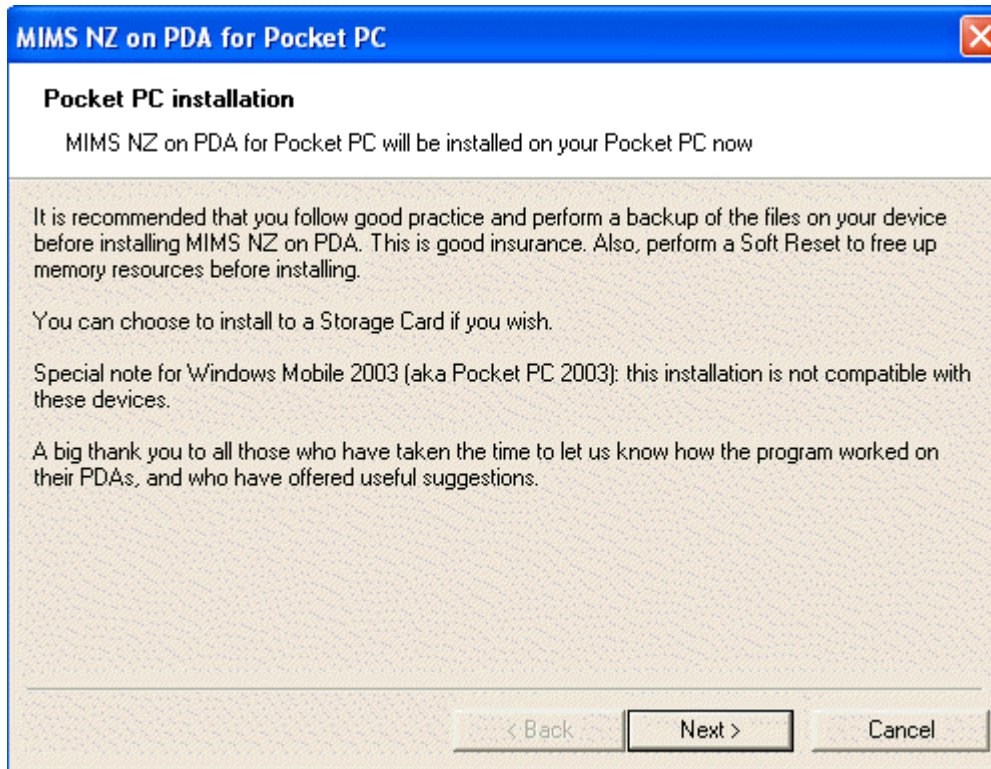

4. Click **Open**.

Step 3 - Install the MIMS files on your Pocket PC

For this step you should not have your Pocket PC connected to your Desktop.

Note: If you have been using the trial version of MIMS, please remove the existing MIMS installation from your Pocket PC before you start. To do this select: Start>Settings>System>Remove Programs. Select MIMS and remove.

1. The Pocket PC installation window is displayed on your desktop computer.

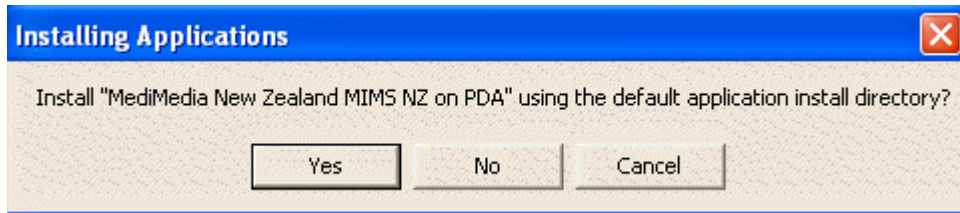

Note: If the window above does not display, then browse for the .exe file that you downloaded, and double click on it to open it. Please do not copy it directly to your Pocket PC.

2. Backup the files on your Pocket PC.
3. Close all programs that are running and perform a soft reset. To do this:
 - ◆ Select Start>Settings>System tab>Memory>Running Programs
 - ◆ Select Stop All
 - ◆ Perform a soft reset.
4. To continue, click Next on the MIMS on PDA for POCKET PC window on your desktop computer.
5. Read the Licence agreement, and click on **ACCEPT** to continue.
6. The ActiveSync® manager now controls the download of the MIMS files to your Pocket PC.

ActiveSync® lets you choose to place the files on your Storage Card, instead of your main memory. MIMS performance is similar when it is loaded on either, but quicker to start from main memory.
7. Connect your Pocket PC to your desktop computer.

The following window is displayed.

8. Click **Yes** to install using the default application install directory.
Installation will take a few minutes.
9. On your Pocket PC, select Start>Programs>MIMS on PDA. A validation page is displayed.
You can either:
 - ◆ Validate your copy of MIMS now by Registering and Validating. Validation lasts for 12 months, or
 - ◆ Try the software for up to 7 days, and validate later.

Step 4 - Purchase a subscription

When you start MIMS, a Validation screen is displayed.

Note: If MIMS is already running, then select Tools>Validation to display the validation screen.

The screen shows your **User Name** and your **Activation Code**. It also has a place for you to enter your Validation Code.

You can use a trial version of MIMS for 7 days, by tapping Validate Later. After 7 days, MIMS will expire on your handheld and you must purchase a subscription and enter a validation code.

Please select one fo the following methods to purchase a subscription to MIMS:

- ◆ phone 0508 464 676
- ◆ e-mail register@mims.co.nz with your:
 - ◆ name
 - ◆ hospital
 - ◆ department
 - ◆ occupation
 - ◆ PDA type
 - ◆ PDA username
- ◆ click on Purchase from the MIMS NZ web site home page.

Step 5 - Validate MIMS

To Validate your MIMS:

1. Make a note of the Validation Code that you are sent by email.
2. Start MIMS.
3. Enter your code into the Validation screen, and tap **Validate Now**.

Your MIMS application is now valid for one year.

Note: please update your MIMS database regularly by downloading the latest version from www.mims.co.nz

Updating MIMS

MIMS on PDA is updated monthly. To update your files, follow Steps 1 to 3. Make sure that you follow the whole process for downloading and installing to ensure that you update with the correct files.

Troubleshooting

Problem

MIMS has stopped working, or my subscription seems to have run out before time.

The Validation code does not work.

Solution

You may have forgotten to download the monthly updates.

See Updating MIMS (on page 7)

You have not supplied the correct User Name to MIMS. Check the User Name on **YOUR** PDA. Look for missed punctuation.

You have changed the name on your Pocket PC device. Contact MIMS, or your company representative for a new Validation Code.
